MEMORANDUM FOR: The Director

**SUBJECT : Reply to The Members of Congress for
Peace Through Law**

1. Attached is a final version of [] originally stimulated by Barry Goldwater's offer to blast the "Peace Through Law" crowd in our behalf. 25X1A

2. I think Don has done an absolutely first-class job. However, the "Peace Through Law" crowd has not gotten any attention lately, and indeed seem to be in some disarray (in fact one of their staff has come to us recently for a job). I therefore doubt that we would gain anything by stirring up the issue at this stage, but I think Don's work is extremely useful and it is valuable insurance to have this paper on the shelf against future contingencies. I think much of it would have uses quite aside from countering the "Peace Through Law" allegations.

3. Technically this version probably should be considered **SECRET** but most of it probably can be reworked for unclassified use if we could assure against attribution to the Agency.
